unless she has some effectual guarantee that the country will not fall into the hands of another

Unfortunately the Egyptian issue is now mixed up with a new enterprise. The recently developed design of France to capture the upper waters of the Nile, and to to approach the Soudan from the southwest, has stimulated many English politicians to retain their hold upon Egypt. We are assured by "The Standard" that in the negotiations now proceeding the Egyptian question forms no part.

Another Paris journal, the "Figaro," has poured cold douche upon the colonial section of the French Chauvinists. Now that a punitive expedition is being prepared on a large scale for dispatch to Madagascar, that journal has pointed out how small are French interests in the island, compared with those of America and England. There are only 600 French subjects in Madagascar, including men, women and children, excluding officials. French trade is not more than £120,000 yearly, and shows a decrease, as compared with the amount of nine years ago, when the treaty which France now seeks to enforce was concluded.

The refusal of the French Budget Committee to indorse the demands of the War Office and to provide for an increase of the army by 35,000 men, is one of the sanest steps of recent years. Had the demand been granted the improving relations now witnessed between France and Germany would have been immediately checked. Moreover, the incident is further regarded as evidence that the more sober-minded politicians of Paris are beginning to realize how little is to be hoped for offensive purposes from the Russian alliance.

Japan has evidently been studying the methods of European diplomacy as well as Western principles of warfare. A cable dispatch of yesterday indicates that she has already agreed with Russle not to annex Corea. But she means to hold that peninsula till it can govern itself. as England holds Egypt. Further, she does not intend to part with a foot of Corean territory for the purpose of granting Russia an ice-free port. Such is the news sent from Yokohama for European consumption.

It is not easy to see where Japan will obtain ber compensation. The same reason that prevents her from absorbing Corea will also prevent any annexation of Manchuria. Russia would not tolerate Japan in possession of any part of the Asian Continent, and it does not seem at all sure that Japan will seek to capture Dispatches published this morning tend rather to show that Japan has pledged herself not to interfere with the treaty ports, of which Peking is one. All recent news, therefore, about the march upon that city is apparently intended to frighten and confuse th The demoralization and unpreparedness of China are so great that if the impending battle west of the Yaloo River proves to be a distinct Japanese success, it is not improbable that the Peking Government may immediately, though indirectly, sue for peace. Already England is erdeavoring to patch up a settlement. For the present all the powers are apparently harmony. The time for discord will arrive, if it come at all, when terms of arrangement come upon the table.

DRAFT OF REPRESSIVE LAWS SUBMITTED TO. PRUSSIAN MINISTERS.

THE MEASURES LESS SEVERE THAN HAD BEEN PEARED-BISMARCKIAN NEWSPAPERS HARASS.

Berlin, Oct. 13 .- Count Botho zu Eulenburg the Prussian Premier, returned on Thursday from his conference with the Emperor in Hubertusstock. Yesterday he presided over the first Plenary Prussian Council held since the holidays. Finance Minister Miquel and Dr. Bosse returned from the country to be present. The Premier submitted to the Ministers a draft of the bill to amend the Prussian laws for associations. It is understood that the bill does not purpose the rigorous measures which have been feared. While it may not suit the Conservatives in the Landtag, it is the utmost the Premier could obtain from the Emperor. Emperor Will be laid before the Landtag must correspond with those to be submitted to the Reichstag. The latter will be limited to amending Article 130 of the Penal Code, which treats of the incitement of class against class and to regulating the right to boycott. The Landtag measure will be submitted somewhat in advance of the Imperial bill.

The Bismarck press is nagging at the Government with its accustomed persistence. Maximilian Hardan's "Zukunft" voices the Conservative and B smarckian discontent over the reported mildness of the repressive measures against the Revolutionists. In its last number Count von Hoensbroech devotes a long article to the argument that the Social Democracy and the German Empire are irreconcilable. The Social Democratic leaders, he recalls, have often openly avowed their desire to overthrow the existing social system, whose arex is the Empire. sting social system, whose apex is the Emply If they should triumph the Empire would vanish. . The Emperor was surrounded by his military household as he took his place near the monument. The ceremony was performed amid the pealing of bells and the braying of military trumpets. Afterward District Councillor Freiherr von Leebell handed to the Emperor a goblet of Rhine wine. Before drinking the Emperor said:

This cup I empty to the welfare of Branden-burg. I hope that as long as God shall bestow on me life and power, and long as the House of Hohenzollern shall stand fast, there never will be any lack of the Brandenburgers' traditional faith-fulness in time of need, and when the Margrave shall call.

LABOR LEADERS EXCHANGE

London, Oct. 13.-The successive declarations made this week by George Shaw-Lefevre, president of the Local Government Board; Herbert Gladstone, First Commissioner of Works; Sir John T. Hibbert, M. P., and Sir George O. Trevelvan, Secretary for Scotland, that the Government had definitely decided to deal with the question of abolishing the veto power of the House of Lords have prepared the public mind for a statement from Lord Rosebery on the subject upon the occasion of his making a speech at Bradford on October 27. Interest in this matter has become so keen that the Premier will not dare omit from his address an explicit announce ment of the Government's policy. In his recent declaration Herbert Gladstone said the time was near at hand when the Government should publicly announce their intention in regard to the House of Lords, and expressed the opinion that the Prime Minister's statement would undoubtedly receive the concurrence of the rank and file

Sir John T. Hibbert, though not a member of the Cabinet, has the close confidence of Lord Roschery. His forecast of the course to be adopted by the Ministry in dealing with the House of Lords question is that the first action will be taken through a resolution introduced in the House of Commons immediately upon the reconvening of Parliament, affirming the principle of limiting the veto power of the Peers, and next through a bill to be introduced later, in which the same principle shall be embodied.

The bill prepared by Joseph Chamberlain for The bill prepared by Joseph Chamberlain for introduction at the coming session of Parliament is approved by the Unionists, but is looked upon with suspicion by the Radical workingmen, for whose benefit it is designed. The measure as it stands includes provisions for the furnishing of State aid to artisans for the purchase of homes of their own, for the granting of old-age pensions, for the limitation of the hours of labor in shops and factories, for the restriction of sions, for the limitation of the hours of labor in shops and factories, for the restriction of pauper alien immigration, and a new employers liability act, embodying a contracting-out clause. An analysis of the plan proves that Mr. Chamberlain has omitted from his calculations the payment of rates, the cost of keeping the houses in repair, the ground-rent charges, the cost of insurance, the loss of interest on the cartial invested by the workingmen and the capital invested by the workingmen and the possibility of the loss of this capital in the event of the vicissitudes of his trade compelling the investor to change his place of residence.

This makes it almost certain that next fall will see another race for the America's Cup. It is probable that the challenge will soon arrive here. The building of another seeker after the cup has been talked of for several months in England, and it has been generally understood that the yacht would be constructed by a syndicate of which Lord Dunraven would be the head. MR GOFF SAID TO BE PREPARING A BIG ONE FOR THIS WEEK.

HIGH OFFICIALS WHO MAY BE CALLED BEFORE THE LEXOW COMMITTEE-TRYING TO

TRACE BLOOD MONEY. The Lexow Committee probably will continue the investigation of the Police Department in this city on only three days of this week, beginning with Tuesday, and then take a recess until after the election, but in the three days some startling revelations may be made. Senator Lexow was if in his home in Nyack yesterday, but at his office in Liberty-st, it was said that he might be able to come to the city again this week. At the office of John W. Goff there was an atmosphere of se crecy and mystery, while the lawyer and his assistants were as busy as possible. It was intimated that some bombs of unusual size were being propared, and that there was danger that important witnesses might be spirited away if certain high officials in the city became aware of the nature of the testimony which the witnesses were expect ed to give on Tuesday.

Mr. Goff, as usual, was unwilling to tell any thing about the line of inquiry to be followed. One of his assistants, however, declared that he had been laying the groundwork for the biggest sensa-

been laying the groundwork for the biggest sensation which the investigation is expected to develop, and that the testimony of more than one high official will be needed in connection with it. This may mean that Commissioners Martin and Sheehan are to be called before the committee this week, or it may mean that the committee this week, or it may mean that the committee this week, and that the counsel for the committee has obtained proofs that some of the police justices have been taking money for protecting criminals, and that the corrupt justices are to be placed on the rack.

Some of the testimony already taken before the committee has pointed to criminal conduct on the part of some officials at the Essex Market Police Court, and the counsel informed the committee last week that more positive testimony would be given later. The poor Polish and Russian Hebrews in that court district have been kept in a state of terror for some time, and it is only of late that they have plucked up sufficient courage to tell how they have been arrested on trumped-up charges, thrown into jail and compelled to pay roundly for their release, as if the district east of the Bowery were some Sicilian village and the Tammany bosses in the district were bandlis with mountain fortresses.

The testimony to show that a number of police captains had been blackmalling everybody who in

mountain fortresses.

The testimony to show that a number of police captains had been blackmailing everybody who in any way came under their power has been ample, but there has been a suspicion that some of the money did not remain with the captains. Mr. Goff may be able this week to trace some of the blood money to the pockets of higher officials in the department.

WILLIAMS DENOUNCED.

WILL SHOW THE INSPECTOR AS HE IS. HIS ACTION IN WHITEWASHING THE POLICE

INSULTED CLOAKMAKERS DECLARE THEY

MEN WHO MADE THE BRUTAL CLUB-BING ATTACK IN RUTGERS SQUARE.

Inspector Williams yesterday began an investiga tion into the alleged clubbing of the striking cloakmakers by the police in Rutgers Square on Thursday night. Captain Grant and several of his police men who used their clubs too freely reported at Headquarters as directed by Superintendent Byrnes. A number of the striking cloakmakers of the Operators' and Cloakmakers' Union were also on hand. They were represented by M. W. Zipkin, chairman of the Executive Committee of the Cloakmakers

Inspector Williams heard the stories of Abraham Robinovitch, of No. 43 Canal-st.; Joseph Wasarakak, of No. 165 Suffolk-st., and Joseph Feingold, of No. 235 Monroe-st. The Inspector heard what Captain Grant, Roundsman Masterson and Patrolmen Shea, Cosgrove and McCarthy, who were present during the trouble, had to say. Seven witnesses also ap-peared in behalf of the policemen.

"There is no evidence at all," said Inspector Williams, "that any clubbing was done. These nen have not got a scratch. My investigation shows that the police simply performed their duty. Chairman Zipkin reported that after the investigation was over Inspector Williams said to the strikers: "Go home; I shall not believe a Jew unler oath. The officers have done their duty.

Mr. Zipkin complained yesterday afternoon that Policeman No. 1563 assaulted Herman Grant, of No. 00 Suffolk-st., in Delancey-st., near Norfolk, yesterday forenoon. Grant is a member of the Cloak makers' Union. It is declared that the policeman clubbed him without cause. The matter will be in vestigated.

The following statement was made last night by Mesars. Zepkin and Applibaum, as a commit tee from the Operators' and Cloakmakers' Union No. 1, in relation to the examination before In

inspector Williams acted in every way unfairly Inspector Williams acted in every way unitarily toward us, and has cast a stigma on our race which he will be held accountable for. He said openly that he world not believe a Jew under oath. During the examination he was curt and insulting. When Joseph Feingold, of No. 225 Munroe-si, appeared before him, inspector Williams remarked. What are you, a closkmaker? and when the man said, yes, the Inspector remarked: "Well, you are not dead yet." Feingold, in reply to questions as to what brought him there, replied

Now, the Executive Committee of our organiza-tion, who sent us here, have decided to pash the matter, and see if inspector Williams is the right man to occupy the position he does. In addition to this, there was a meeting held at New-irving Hall this afternoon, at which at least 5,000 persons were present, and resolutions were adopted de-nouncing this man Williams in the strongest terms and promises; to carry the matter all over, and omising to carry the matter all over, and or there is an opportunity to show him up

The old Holland Land Company's office was erected, as nearly as can be determined, in 1813. Previous to that time the business had been transacted in a smaller building, but its growth made necessary increased quarters, and the present building was erected. It has a frontage of about 46 feet, with a depth of 25 feet, and is two stories in height, it is built of stone in a most substantial manner, and stands to-day practically the same as it did years ago when first erected, and will doubtless rtand for years to come. The Holland Purchase Historical Society proposes to use it as a museum, storing historical relics connected with the Holland Purchase within its walls. The office was discontinued in 187. The idea of preserving it as a historical landmark originated with Professor John A. Kennedy, principal of the village schools.

who was burned to death in the tent of a circus
on Friday evening, following the explosion of a
gazoline stove. A verdict of accidental death was
rerdered Francis Gazen, the proprietor, and Alfred Linde, an assistant, who were severely burned,
were doing well yesterday. The wrapping of
Lindes coat about (mass saved the latter's life.

The colored voters of White Plains, to the
number of fifty, have organized an association, to
be known as the Pioneer Club. They have engaged
quarters in Moger's Hall, and will meet nightly
during the campaign. The objects of the club are
social as well as political. The officers are Charles
H. Smith, president: Julius W. Wikerson, vicepresident: Jacob A. Hall, souretary, and William
Rogers, treasure. Michael J. Hogan, Joseph H. Mead, of the Central Bank, is secretary, president: Jacob A. Hall, secretary, and William Rogers treasurer. Michael J. Hogan, through coursel, has presented a bill to the Board of Trustees, amounting to \$1.20, balance alleged to be due him for furnishing crushed stone to the Board of Trustees of 182. Hogan alleges that the Board that year advertised for bids, and specified that the bidders must furnish all supplies. He now alleges that the board deducted it cents a yard from his contract to pay the owner of the quarry for stone taken therefrom, which deduction was never contembated at the time bids were regelved.

## Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY Cures Ninety-eight per cent. of all cases of Con-

Although by many believed to be incurable, there

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its varietr stages, 'consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration fincluding tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were strongly prejudiced and often advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod liver oil and its filthy "emulsions" and mixtures, had been tried in they are acquainted. Nasty cod liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time.
